K&N® Cabin Air Filters replace your vehicle's stock cabin filter with a reusable design that cleans and freshens incoming air. They are electrostatically charged to grab and hold dust particles. K&N® cabin air filters help control odors while they help capture most mold, mildew, fungus, spores, bacteria and germs. When they get dirty they can be cleaned and reused and best of all, they come with a 10 year/Million mile limited warranty.

If you need any assistance please call 1-800-858-3333 to speak with a representative in our Customer Service Center before returning the product.

When applicable, refer to owner's manual for manufacturers installation/removal instructions. The following are helpful steps when replacing/servicing cabin air filter with K&N® cabin air filter.

1. Open the hood.
2. Remove half of the weather strip on the passenger side cowl panel. Fig. 1
3. Lift the cowl panel to access the cabin filter tray. Fig. 2
4. Press the tab on the front of the tray to unlock and remove. Clean any debris that might be present inside the housing.
5. Remove the dirty filter from the tray and install the K&N® cabin filter. Fig. 3 and 4
6. Locate the trays tab in the slot under the cowl panel. Fig. 5 and 6
7. Lock the tray in and re-install the weather strip to complete the cabin filter installation. Clean an area and apply the K&N® Stop Decal. The decal will help notify others that this is a reusable cabin filter.
